Radio Controls.

For Blinds, Shutters, Awnings & Garage Doors

TEL-TVPRS868A02

- . Built in receiver for 1 motor up to 350 watts
- . Impulse open & close
- . Connections for external up/stop/down switch
- . Max 41 transmitters
- . Dynamic & open/close control options
- . Can be installed inside the shutter housing

TEL-TVPRS868A01-S

- . Radio Receiver with 'Soft touch' control
- . Local control & Radio control of 1 motor
- . Impulse and present man in any direction
- . LED motor travel status
- . Max 41 transmitters
- . Can be surface mounted with housing TEL-PSK0004

TEL-TVRC868A01

- . Radio receiver, 4 channels with N/O or N/C relays
- . Input power supply 12/24v
- . Dip switches to select impulsive or fixed switching
- . Max 86 codes
- . Ideal for Industrial doors when up/stop/down is required

TEL-TVPRP868R07KIT - VENUS IV

- . Basic Radio controller
- . 24v output for photocells
- . 230vac output for courtesy light
- . Connections for up/stop/down switch
- . Impulse/present man options in both directions
- . Max 41 transmitters

TEL-TVPRP868R07LKIT - VENUS IVL

- . Basic Radio controller with built on light
- . 24v output for photocells
- . 25 watt built on courtesy light
- . Connection for up/stop/down switch
- . Impulse/present man options for both directions
- . Max 41 transmitters

ACC-CON-SAF-PH

- . Retro-relective photocell
- . Up to 6.5 mtrs opening
- . Pre-wired with 5 mtrs of cable
- . N/O and N/C switching
- . Includes 1 fixing bracket

Radio Controls.

For Doors & Shutters with 'Wired' safety edge

TEL-TVPRP868AO1KIT

- . Connections for safety photocell with auto test
- . Connections for wired safety edge
- . Output connection for courtesy light
- . Auto time close
- . Impulse/present man modes in both directions
- . Connector for plug in foil lid with up/stop/down control
- . Connections for wired switch
- . Max 41 transmitters

TEL-TVPRP868AO1LBKIT

- . Connections for safety photocell with auto test
- . Connections for wired safety edge
- . Built on courtesy light 25 watts
- . Auto time close
- . Impulse/present man modes in both directions
- . Connector for plug in foil lid with up/stop/down control
- . Connections for wired switch
- . Max 41 transmitters

TEL-TVPRP868AO1LKIT

- . Connections for safety photocell with auto test
- . Connections for wired safety edge
- . Built on courtesy light 25 watts
- . Auto time close
- . Impulse/present man modes in both directions
- . Foil lid with open/stop/close & LED status indicators
- . Connections for wired switch
- . Max 41 transmitters

TEL-TPR-S1102L

- . Low powered optical safety sensor, IP65
- . Self balancing adjustment up to 10 meter range
- . 11.5mm diameter

TEL-TPS-AC11052

- . Spiral cable with slim connection box

- . Rubber profile h = 30mm [TEL-TPS-PA204001](#)
- . Rip off foot seal from 20 to 15mm
- . Pair of bumpers [TEL-TPS-OSE-B3516](#)
- . Rubber profile h = 29.5mm [TEL-TPS-PV154000](#)
- . Rip off foot seal from 14.5 to 9.8mm
- . Pair of bumpers [TEL-TPS-OSE-B3512](#)

TEL-TVPRP868AO1LKIT-3

- . Full kit up to 3 mtr garage door

TEL-TVPRP868AO1LKIT-5

- . Full kit up to 5 mtr garage door

TEL-TVPRP868CO1

- . Receiver with integrated 2.4GHz radio safety edge receiver
- . 24v output for photocell with auto test
- . Output for courtesy light
- . Plug in connector for foil lid with up/stop/down control
- . Auto time close
- . Max 41 transmitters
- . Can control up to 2 door transceivers TCSP
- . impulse/present man mode in both directions
- . Dynamic or 2 channel operation from transmitters

TEL-TVPRP868CO1L

- . Receiver with integrated 2.4GHz radio safety edge receiver
- . 24v output for photocell with auto test
- . Built on 25watt courtesy light
- . Plug in connector for foil lid with up/stop/down control
- . Auto time close
- . Max 41 transmitters
- . Can control up to 2 door transceivers TCSP
- . Impulse/present man mode in both directions
- . Dynamic or 2 channel operation from transmitters

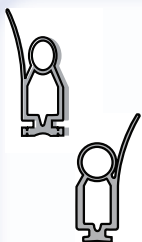

TEL-TCPS240A01

- . Door transceiver with batteries (2 years life)
- . Connection of 8.2 resistive or low powered optical safety edge
- . 2.4GHz connecting speed

TEL-TPR-S1102L

- . Low powered optical safety sensor, IP65
- . Self balancing adjustment, up to 10 meter range
- . 11.5mm diameter

- . Rubber profile h = 30mm [TEL-TPS-PA204001](#)
- . Rip off foot seal from 20 to 15mm
- . Pair of bumpers [TEL-TPS-OSE-B3516](#)
- . Rubber profile h = 29.5mm [TEL-TPS-PV154000](#)
- . Rip off foot seal from 14.5 to 9.8mm
- . Pair of bumpers [TEL-TPS-OSE-B3512](#)

TEL-TVPRP868AO1LKIT-3

- . Full kit up to 3 mtr garage door

TEL-TVPRP868AO1LKIT-5

- . Full kit up to 5 mtr garage door

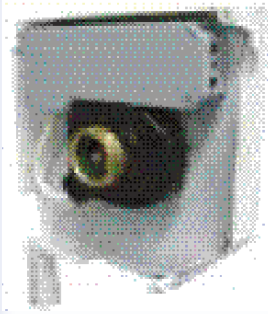

Integrated Radio.

With optional 'Wireless' safety edge

TEL-TVPRP868CO1

- . Integrated radio receiver with optional wireless safety edge
- . Radio receiver can be installed during door production
- . Can be used as a built in receiver without safety edge
- . Radio safety edge compatible
- . Radio signal is permanently connected to the door transceiver
- . 2.4 GHz for optimal operation of safety edges
- . Guarantee that the door conforms to EN 13241
- . Reduces installation time on site

TEL-TVPRW868I01-IPER

- . Receiver with permanent radio connection to safety edge
- . Auto opening & closing
- . Input for safety brake
- . Input for wired push button
- . Output for courtesy light
- . Separate on/off function for courtesy light using 4th channel

TEL-TCPS240A01

- . Door transceiver with batteries (2 years life)
- . Connection of 8.2 resistive or low powered optical safety edge
- . 2.4GHz connecting speed

TEL-TPR-S1102L

- . Low powered optical safety sensor, IP65
- . Self balancing adjustment, up to 10 meter range
- . 11.5mm diameter

- . Rubber profile h = 30mm [TEL-TPS-PA204001](#)
- . Rip off foot seal from 20 to 15mm
- . Pair of bumpers [TEL-TPS-OSE-B3516](#)

- . Rubber profile h = 29.5mm [TEL-TPS-PV154000](#)
- . Rip off foot seal from 14.5 to 9.8mm
- . Pair of bumpers [TEL-TPS-OSE-B3512](#)

TEL-TVPRP868AO1LKIT-3

- . Full kit up to 3 mtr garage door

TEL-TVPRP868AO1LKIT-5

- . Full kit up to 5 mtr garage door

Radio Transmitters.

868MHz - Hand held transmitters & Switches

TEL-TVTXP868A01

- . 1 Channel transmitter
- . Wall holder

TEL-TVTX868A02

- . 2 Channel transmitter
- . Wall holder

TEL-TVTX868A04

- . 4 Channel transmitter
- . Wall holder

TEL-TVTX868A03

- . 3 Channel transmitter
- . Wall holder
- . Up/stop/down control

TEL-TVTXQ868A18

- . 18 Channel transmitter
- . Wall holder
- . Up/stop/down control
- . Control 6 motors with up/stop/down functions

TEL-TVTXQ868A42

- . 42 Channel transmitter
- . Wall holder
- . Up/stop/down control
- . For single/group control

TEL-TVTXK868B04

- . Wireless keypad
- . 5 digit access code
- . External or internal
- . 4 Channels
- . Also available in Black

TEL-TVTXL868B02

- . Battery powered
- . Fits inside S32 key switch
- . Can be wired to any mechanical switch to convert to radio switch

TEL-FOIL-LID

- . Foil lid
- . Up/stop/down control
- . Power status LED
- . Safety status LED
- . Plugs into PRP control units

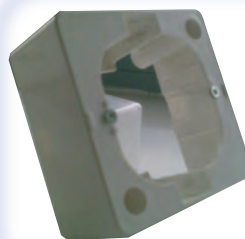

TEL-SM0063

- . Momentary rocker switch
- . Surface mount

TEL-TXW-SK0003

- . Wall mount paddle switch
- . White

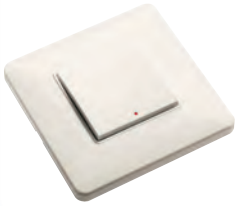

TEL-TXW-PSK0004

- . Surface mount housing

Radio Transmitters.

868MHz - Wall mounted transmitters

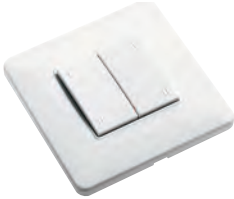

TEL-TVTXW868A01

- . 1 Channel transmitter
- . White

TEL-TVTXW868D01

- . 1 Channel transmitter
- . Anthracite

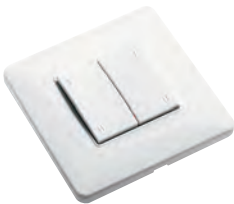

TEL-TVTXW868A02

- . 2 Channel transmitter
- . White

TEL-TVTXW868D02

- . 2 Channel transmitter
- . Anthracite

TEL-TVTXW868A04

- . 4 Channel transmitter
- . White

TEL-TVTXW868D04

- . 4 Channel transmitter
- . Anthracite

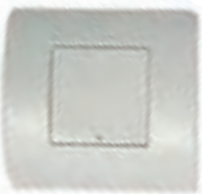

TEL-TVTXW868A42

- . 42 Channel transmitter
- . Sequential operation
- . White

TEL-TVTXW868D42

- . 42 Channel transmitter
- . Sequential operation
- . Anthracite

TEL-TVTWHW

- . Wall or desk top holder
- . White

TEL-TVTWHO

- . Wall or desk top holder
- . Orange
- . Blue
- . Green

Radio Controls.

For Blinds, Shutters, Awnings & Garage Doors

TEL-TELECON

- . Basic Radio controller
- . 24v output for photocells
- . 230vac output for courtesy light
- . Connections for up/stop/down switch
- . Impulse/present man options in both directions
- . Max 15 transmitters
- . Max motor size 230Vac 1000 watts
- . Can easily be converted to offer 'volt free' switching

TEL-TELECON -1

- . Basic Radio controller
- . 24v output for photocells
- . 230vac output for courtesy light
- . Connections for up/stop/down switch
- . Impulse/present man options in both directions
- . Max 15 transmitters
- . Max motor size 230Vac 1000 watts
- . Can easily be converted to offer 'volt free' switching

TEL-TELECON-T

- . Channel transmitter
- . Up/stop/down control
- . Protective slide cover
- . Key fob clip

ACC-CON-SAF-PH

- . Retro-reflective photocell
- . Up to 6.5 mtrs opening
- . Pre-wired with 5 mtrs of cable
- . N/O and N/C switching
- . Includes 1 fixing bracket

TEL-TELECON1-KIT

- . Radio control kit
- . Includes p
